

## An Affordable Indoor Display with Outdoor

Ultra-Bright LEDs!

Break through clutter and captivate passersby with stunning motion and graphics! Effective advertising means more business, which is exactly what you will achieve with an eSign Window Display.

Available in either **one-two** or **one-four** line models, Window Displays feature Ultra-Bright LEDs available in **red** or **amber**, and graphical capabilities to maximize visibility and impact. Programming messages from your personal computer is made simple by user-friendly Messaging Software.

Why miss out on opportunity that knocks daily? Advertise to existing customers and attract new ones with a communication solution that will benefit you for years to come. When you get your message out, it brings business in.
